Ergonomic disc surface

Anti-slip airpocket underside

Nitrile Turn (raised disc) is the premium solution for wet, oily and heavy industrial areas.

Made of a 100% virgin nitrile rubber compound. Resistant to most industrial oils and fluids. Nitrile Turn has an optimum ergonomic raised disc surface for optimum turning and freedom of movement.

The flat raised disc surface of Nitrile Turn also gives good access with carts.

Elastic square "airpocket" anti-slip underside construction for excellent stability on smooth flooring.

Especially designed for heavy usage areas around machines and workbenches in industrial areas in eg. automotive and metal working industries with oil and fluid spilling.

Features:

- Elastic, strong and durable virgin nitrile rubber.
- Oil proof 100% nitrile rubber compound.
- Molded beveled edges on all sides.
- Highest standing comfort. Highest anti-slip properties.
- Square airpocket underside for stability on smooth flooring.
