105x135cm, 105x195cm, 105x255cm, 105x315cm, 105x375cm (+60 cm)

Heavy is a heavy-duty workplace mat for polluted industrial areas with oil spilling.

An extremely strong, solid and oil resistant nitrile rubber mat. Made of a pure virgin 100% nitrile rubber compound.

With oval holes for drainage of cutting oils and fluids. Long vertical/horizontal holes can collect more metal swarfs and debris.

With 7,5 cm wide molded beveled edges for easy access for material vehicles.

Heavy is anti-slip and has a positive anti-fatigue effect on employees with standing workpositions. For all employees with standing workpositions in metalworking industries with slippery, oily, wet and polluted floors. Resistant to most cutting oils, brake fluids, welding sparks etc.

## Features:

Long oval holes for optimum drainage.

Oil resistant. 100% nitrile rubber compound.

Molded 7,5 cm beveled edges on all sides.

High standing comfort.

Anti-slip, durable and strong.

## Product specifications:

Thickness: 20 mm

Weight: 9,5 kg/m<sup>2</sup>

Colour: Black

Surface: Anti-slip

Drainage: 45 mm ovale holes

## Types:

Black nitrile rubber resistant to oils, and fluids in industrial areas.

Optional in grey EPDM rubber resistant to animal fats, water, high temperature in eg. foodindustry.
